Nisarga Batika School | For Experiential Learning

The Senior High School's NEB curriculum is enhanced in partnership with Kathmandu College of Management (KCM). This allows the students to resources, academic assistance and university preparatory programs. KCM offers undergraduate international degrees in collaboration with Thailand's Siam University. These joint program collaborations give students the exposure and experience needed for higher education and beyond.

Nisarga Batika School | For Experiential Learning

The basic programs that takes place in collaboration between Nisarga Batika School and Kathmandu College of Management is given below:

- Basic English Skills
- Enhancing Communication Skills
- Business Idea generation and implementation
- Building management and leadership skills—integrating DYPL and HRPD
- Enhancing Public speaking skill
- Enriching capital market domain
- Creating social value—establishing social club
- Establishing spiritual values and meditation
- Entrance preparation Classes of engineering and medical students
- Report Writing and Research Methodology

Nisarga Batika School has entered into a partnership agreement with the British Council Services Nepal for enhanced senior years (Grade 11-12) high school curriculum. This provides an institutional framework to integrate Cambridge International Advanced Level Curriculum within the National Curriculum (NEB) allowing students access to studying the courses and getting the accreditations. With this partnership the students in Grade XI and XII can select from among more than a dozen of Cambridge International Advanced Level subjects along with the NEB Curriculum. **This is a first of its kind opportunity provided to the high school students in Nepal.** Nisarga Batika School, a Cambridge International School, is already integrating at its elementary levels with its collaboration with Cambridge International Assessment Education for Primary and Lower Secondary Programs. This collaboration highlights the importance of imparting a national curriculum in line with the international level education and certification in the modern education system.
