Nisarga Batika School | For Experiential Learning

The Program

Nisarga Batika School | For Experiential Learning

Our senior high school program incorporates Nisarga's experiential learning concept while adhering to the National Examinations Board's (NEB) recommended syllabus. The students are the opportunity and freedom to shape their careers through flexible topic selections that avoid rigidity and embrace the independence that the majority of high schools in Nepal do not provide. They will have the freedom to combine their favorite subjects in a way that appeals to them and is distinctive. Nisarga will be one of the very few institutions in the world that will be defying traditional wisdom that restricts their possibilities.

Nisarga Batika Senior High School (Grades 11 and 12) offers students the opportunity to create their own professions by offering a wide variety of course options. We allow you to choose from a variety of science, business, mathematics and arts subjects, and assist and counsel you to **“Craft your own career”**. This allows flexibility to choose the career you wish to pursue and the topics that interest you.

Nisarga Batika School | For Experiential Learning

Our program gives you academic and professional engagement activities that will aid in **experiential learning** by combining a mix of full-time faculty and subject specialists. Take advantage of the **career and counselling services** for students, **university preparation courses** and **gap year assistance** for individuals who want to gain experience before pursuing higher education.

Nisarga allows flexibility in academic schedules, assignments and academic workload to balance students activities, sports and other iterests. Nisarga has embraced the liberal arts paradigm, it is easier for students to choose classes based on their interests and market demands.

Nisarga Batika School | For Experiential Learning
